

The VOICE: News Letter for January and February 2017

Training and Placement Cell, VJIT, Hyderabad

WHY PREPARATION IS NECESSARY FOR CAMPUS PLACEMENTS?

From the Desk of:

Mrs. Shikha Kaushal, ATPO, Corporate Relations, VJIT

Hello Everyone! I'm writing this article to give you a glimpse about current Campus Placement's trends and Market requirements. First of all, let me tell you that cracking Campus Placements specially for Software Companies (Service based and Product based) and Core companies is **not at all easy** if you are not prepared, but, if you are very good at your Subject fundamentals, technical Skills, communication, aptitude, then Campus Placements is the easiest way to have a Job immediately after your graduation. In fact, many Products based Software Companies hires B.Tech fresher's in their 4.2 itself. The best way to get trained in above mentioned skills is to participate in the training sessions organized by the Placement Cell.

Projects- Ever wondered if your Mini and Major projects can help you get a Job, specially via Campus Placements? The answer is **Yes**. The more projects with a unique idea you develop on your own, the more you will get to speak and interact confidently with the Technical panelist of any company. This also brings in the confidence on the panelist to take you further. Projects are very important if you are looking to be part of a Product based company which offers minimum of 4 Lakhs Per Annum. So choose your Mini and Major projects wisely.

To get into the Technical round you will first have to clear the First round which usually includes Aptitude, Verbal Analysis, Technical Subjects like C, Java, DBMS, Coding, Code Snippets (for CSE, IT students) and for rest of the branches it includes your core subjects from first year onwards.

What after clearing First round and Technical Interview? What is needed next? It's your Communication Skills. Only your communication skills can help you clear the HR round. Basically, for most of the companies an HR round is just a formal round but if you are unable to answer their simple questions in simple fluent English then it could be a problem to clear the HR round.

Hence preparation is very important to crack Campus Placements. Wishing you a Happy Placement Season ahead!

Campus Drives in the month of January and February:

1. Cyient on Campus Placement drive was scheduled on 24th Jan, 2017. 8 students from VJIT got selected in the placement drive.
2. On Campus Placement drive for VEB Solutions was scheduled on 18th Feb, 2016. 2 students already started working as Interns.

Guest Lectures:

1. Mr. Sanjay Narang from Made Easy has given a talk on the advantages of writing GATE exam and PSU Opportunities on 5th February, 2017. GATE is a government-conducted exam which is helpful in joining Government based organizations like ISRO, DRDO, etc.
2. Ms. Garima Kapoor, Head ETS India, has given a talk on 7th February, about the examinations like GRE, TOEFL and how to score better.
3. Dr. Balaji Utlal, CEO, Kria Health Limited, Hyderabad has given a talk on the status of Healthcare and Application of Technology in India on 13th February, 2017. Healthcare is one of the biggest sectors in the Indian Market and there are various companies working to achieve milestones in this field. Along with him Dr. Utlal and Mr. Ramesh from Kria Health Ltd have also given talks on the benefits of doing an internship with their company which is working in the field of Healthcare.

Placement Team, VJIT, along with Cyient Campus Hiring Team- 24th January, 2017
