## 7.1.5 GREEN CAMPUS INITIATIVES

The institutional initiatives for greening the campus are as follows:

- Restricted entry of automobiles
- Use of bicycles
- Pedestrian Friendly pathways
- Ban on use of Plastic
- Landscaping with trees and plants

### RESPONSE:

Vidya Jyothi Institute of Technology one of the best engineering colleges in Telangana, has always taken a green agenda. Despite being primarily a technological institution, it has shown remarkable awareness in maintaining an eco-friendly campus. On visiting the Campus, one can experience the aesthetic and elegant buildings, splendid lawns, spacious sports grounds and lush green environment conducive for teaching-learning process.

### INSTITUTIONAL INITIATIVES:

#### RESTRICTED ENTRY OF AUTOMOBILES

The college operates a fleet of 29 buses covering each corner of Hyderabad to facilitate the students and staff. The institute encourages the staff and students to use the college transport instead of their own vehicles for safety, security, fuel conservation and to reduce environmental pollution. The college buses are checked for pollution by the authorized agency. The vehicles owned by faculty or students with pollution check stickers are permitted into the campus. Random checks are made to check the validation and periodicity of this certificate. For two wheelers or four wheelers, security measures are mandatory.

#### USE OF BICYCLES

The students staying in boy's hostel are using bicycle to go from hostel to college and vice versa. Students and staff coming from nearby villages also prefer bicycle as a mode of transport for attending the college. It is environment friendly and prevents pollution

#### PEDESTRIAN FRIENDLY PATHWAYS

Vehicle parking space is provided at the main entrance of the college campus. As the campus is vehicle free with some exceptions, students and staff experience comfort walking through the pedestrian friendly pathways. The internal roads are lined with trees and solar lights and they are properly maintained by the campus maintenance committee.

Vidya Jyothi Institute of Technology  
Hyderabad-500 075

### **BAN ON USE OF PLASTIC**

Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation and display boards in the premises. To restrict the use of plastic, measures have been taken to replace plastic tea cups and glasses with steel glasses in the canteen. The staff and students are informed to use steel or copper water bottles instead of plastic bottles.

### **LANDSCAPING WITH TREES AND PLANTS**

Landscaping of the college is worth seeing and reflects aesthetic sense. The institute has a canopy of trees and plants to make the environment pollution free to safeguard the health of all the inmates. The lawns and the trees provide shade and beautiful ambience. Utmost care is taken to develop and maintain green landscaping by trained gardeners and supervisor. The construction, maintenance and beautification committee constituted in the college looks after the development and maintenance of the greenery in the campus. The institute authorities are taking initiatives to make the campus paperless. Internal communication in the campus, through e-mail or e-messages, is driving towards paperless office. Electronic notice boards are installed in the campus to display circulars and information for the students. Electronic gadgets are preferred to transfer and store the official data and information. Library and examination sections are equipped with efficient software

### Mission

- Providing facilities and environment conducive to a high quality education, well grounding the students in the fundamental principles of Mechanical Engineering and preparing them for diverse careers
- Engaging in academic activities, which strengthen the student's regional, national and international reputation

Engineering Engineers

- To shape the students holistically, to make them competent in theory and applications so as to excel in global scenario
- To imbibe research oriented teaching-learning practices through OBE, PBL & Ethical Based Education
- To promote higher education and research through strong Institute-Industry Interaction and consultancy
- To strengthen the R&D of each department by involving the students to address the community based problems
