SUPER CONSCIOUSNESS

Millions of babies are born every moment. Before they were born, they were all souls: no differentiation. But from that original, individual, undifferentiated state, they come down here, and are all assuming nationalities, color, consciousness, greatness or smallness, strength, or weakness. So, you see the process of descent creates differentiation, while the process of ascent creates unification. It is necessary for each of us, in our own consciousness, to get rid of these differentiating things and come to that unity of existence.
