### Objective of the Conference

This Conference is aimed at addressing the research topics in Big Data Analytics and Cloud Computing with focus on current research trends and recent advances along with mathematical and probabilistic approaches. The Objective of the conference is to inculcate research skills among young researchers in the area of Big data and cloud computing.

Big data is one of the emerging areas that deals with large velocity of data. Big data covers the whole world wide web(www) data. This conference provides excellent key note speeches that covers recent trends in Big data Analytics and Cloud Computing.

### Call for Papers:

- Big Data challenges
- Cloud Computing
- Cipher Forensics
- IOT
- Information Retrieval
- Image Data Mining....etc.

### Note:

All Original Articles from Computer Science & Information Technology are also Invited.

### Resource Persons:

Eminent Professors from IITs, IISc Academic Institutions, Central Universities and Government Organizations.
