Vidya Jyothi Institute of Technology
Department of CSE
AY: 2020-21

Innovative Technique Implemented: Book Widget(LMS)

**Subject:** Principles of Problem Solving

Name of the Faculty: B.Vikas

Topic: Class Test

Students: I B.Tech I-Sem

Implementation:

1. Monitor your students' progress in real-time while they're working on BookWidgets assignments, at home or in your classroom.

2. Immediately discover students that need extra challenges, help struggling students, play live games, take real-time surveys, and much more.

3. BookWidgets enables you to easily create custom material that will work for the class.

study practice

Printing in C   Printing text

printf (" ");

What are different parts of a printf in C?

What different formatting symbols can be used in printf to format text?

Show hint

OUTCOME: BookWidgets enables teachers to create fun and interactive lessons for tablets, smartphones, and computers.
